TESTIMONIALS

"Chiropractic Masters came into my life during a very difficult time back in the fall of 2008 and since then, my practice has grown 30% in 2009 and I am on track to grow another 40% in 2010. Dr. Mike truly wants every Chiropractor to succeed for their own benefit and for the benefit of those whom we serve. His methods are tried and true and reproducible by anyone...all you have to do is commit to the program and follow through. I can't thank Dr. Mike and all of the amazing people in the Chiropractic Masters group enough. For me, they have literally changed my life and helped to bring the fun back into being a DC."

- Dr. Darrin G. Midland, Ontario

"I began the Chiropractic Masters associate program in March 2009. A large attraction for me to this particular associate ship was the fact that Dr. Wagner has been an existing client of Chiropractic Masters for several years. I walked into a "Master-run practice" and knew I would hit the ground running. After 5 months in the program, I was seeing an average of **170** patients per week and **now after 18 months I'm seeing 225/week**. Dr. Mike does not only coach his marketing and business techniques, but also educates in the philosophy and passion for chiropractic as well- essentials for practice success that were certainly not included in the curriculum at chiropractic college. For a recent grad, it is essential to be among the most successful chiropractors in practice i.e. other Chiropractic Master clients; it is a goldmine to learn from them and to see abundant practice success. I am grateful to Dr. Mike for his coaching as well as his leadership in the profession."
